

Velluto / Velvet Touch – Ayurvedic Hair & Scalp Oil

Velluto is an Ayurvedic oil treatment that brings new life to your hair. Whether your scalp feels dry, your strands are brittle, dull, fine, or weakened by chemical treatments or you simply long for more natural shine, this oil is your trusted companion.

What does Velluto do for your hair?

In nature, what dries out becomes fragile and breaks — hair is no different. Velluto deeply nourishes the scalp, helps maintain healthy roots, and restores softness and vitality along the lengths. It smooths frizz, replenishes moisture, and revives the natural radiance of your hair.

How to use Velluto

Velluto is not a cream or a mask, it's a **complete Ayurvedic treatment**.

- ❖ **For a full treatment:** apply the oil to **dry hair**, from scalp to ends. Leave on for the recommended time.
- ❖ **For dry lengths only:** if your scalp is normal or oily, apply Velluto just to the mid-lengths and ends.

Afterwards, wash with your usual **gentle shampoo**, as shown in my video (*How to wash your hair after treatment*).

Herbal Ayurvedic oils are always applied on dry hair, left to act, and then followed by a thorough shampoo to remove the excess oil.

Additional benefits of Velluto

- ❖ **Hair fall:** helps strengthen the hair fibre and support natural growth, particularly suited to specific Ayurvedic constitutions.
- ❖ **Holistic care:** it can be combined with other targeted Ayurvedic treatments.
- ❖ **Seasonal care:** especially beneficial in winter or in dry climates, when the scalp and hair tend to lose hydration and elasticity.
- ❖ **Calm & relaxation:** a gentle scalp massage with Velluto releases tension and promotes deep relaxation a true ritual for regeneration.

Velluto – the ayurvedic oil that nourishes, from root to tip.
